BIOGRAPHICAL SKETCH

The author was born on March 31, 1995 in his hometown in Campos, Talavera Nueva Ecija. He is the youngest son of Mr. Rodrigo Bonifacio and Irene Bonifacio, and has two siblings named Rodel Glenn Bonifacio and Reynadel Bonifacio

He finished his elementary at Calipahan, Talavera, Elementary School and finished Secondary Education at Sto. Domingo, National Trade School. He is a graduate of Central Luzon State University, located Science City of Muñoz, Nueva Ecija, with degree of Bachelor of Arts in Social Science.

He attended different seminars which are significant to his course, subject as well as to his research paper, such as Psych Congress, Campus Congress Leaders, Annual Leadership Training, Urirat: an inquiry into local culture and society, Seminar for Climate Changes and Environmental Management and Urirat: tungo sa isang bagong direksyon sa pananaliksik para sa panlipunang pagbabago.

The first author did his best to study better inspite of many shortcomings and Obstacles he met in his life. He always struggled to be the best in all aspects of his life. He believes that “Don’t give up; the beginning is always the hardest”

ACKNOWLEDGEMENT

First and foremost, I would like to thank and praise our Almighty Father for providing all my needs, for the continuous and everlasting love, and for giving enough knowledge, and strength to pursue my endeavor and to fulfill my vision as a student.

To my parents, Mr. Rodrigo P. Bonifacio and Mrs. Irene V. Bonifacio for continuously support, guide and providing my necessities financially and morally.

To my dear adviser Professor Peachy D. Araza, for helping and supporting all the way for the improvement of my paper.

Special thanks to all the panelists, Mr. George M. Dela Cruz and Professor Ma. Editha N. Lim for commenting my paper to be improved and for me to achieve my goal as a student.

To my statistician Sir Jun Francis P. Santiago, for his effort in analyzing and discussing my data gathered in the study.

To my colleagues and friends, Ate Lee Bonifacio, Micole Batenga, Renan Salvador and to all my brothers and sisters in Alpha Phi Epsilon, for the encouragement and inspiring me to finish my course. Thank you.

Finally, for those who did not mention, special thanks will be given to everyone. This piece of work is humbly dedicated to you.

ABSTRACT

BONIFACIO, RONNEL VIN V. Bachelor of Arts in Social Science, Department of Social Sciences, College of Arts and Science, Central Luzon State University, Science City of Munoz, Nueva Ecija, Philippines, **VULNERABILITY OF RICE FARMERS IN PINAGPANAAN, TALAVERA, NUEVA ECIIJA.**

Adviser: Peachy D. Araza.

This study deals with the vulnerabilities of rice farmers in Pinagpanaan Talavera, Nueva Ecija. Participants were identified based on purposive sampling for a total of 80 farmers in Pinagpanaan, Talavera, Nueva Ecija.

The Pearson r-correlation was used to determine the significant between socio – demographic characteristics and types of vulnerability. Also, other statistical analysis was used to find the frequency and percentage of each variable. The types of vulnerability were categorized as the physical and economic.

On the other side rice farmers are also vulnerable to the type of calamities, pest and variation of supply and demand. While the rice farmers in Pinagpanaan, Talavera Nueva Ecija are not vulnerable on the water resources and capital in farming.

The study revealed that sex is significantly correlated with the pest in farming and profit have highly significant relationship to capital in farming. Lastly, the rice farmers desire to have a different job so they can improve their lives and they are physically vulnerable to farming because it's difficult for them.
