INFLUENCE OF VARIOUS RATES OF COPPER
SULFATE AND COMPLETE FERTILIZERS ON
THE YIELD, HARVEST AND STORAGE
QUALITY OF ONION
GORGONI PARICHANDIA

Thesis Presented to the Faculty of the Graduate
Studies and Research of the Central Luzon
State University in Partial Fulfillment
of the Requirements for the Degree
of Master of Science in
Agriculture

APPROVED:

Filomena F. Campos

Adviser

Filomena F. Campos

Dean of Graduate Studies

ACKNOWLEDGMENTS

The author wishes to acknowledge with deep gratitude and appreciation the invaluable help extended him by his adviser, Dr. Filomena F. Campos and co-adviser Prof. Josue A. Irabagon, during the experimental part of this study, as well as in the preparation of the manuscript.

Special thanks are due Dr. Pedro A. Abella, Dean, College of Agriculture, Dr. Alfonso N. Eusebio, Dean, Graduate Studies, Prof. N. de Guzman, Mr. M. L. Aragon and Prof. G. C. Rillon for their constructive suggestions for the improvement of this research manuscript.

The author is likewise indebted to Mr. Renato C. Bernarde, for checking the statistics of the study; Mr. Dionisio Punzalan, for his criticism and recommendations; Mrs. Estrelita P. Tgdeo for analyzing the moisture content of onions used in the study, and Miss Apolonia Lalap, for identifying the onion diseases. The author deeply appreciates their help and he wishes

to express sincere thanks for their kind cooperation.

Acknowledgment is also given to his former advisor, Mr. Clarito C. Dacumos, for the help and encouragement he extended to the author.

Thanks are also extended to all his friends who in one way or another have helped the conduct of the study.

Finally, he acknowledges his greatest indebtedness to his beloved parents, brothers and sister for their financial and moral support. To them, this little work is affectionately dedicated.

ACKNOWLEDGMENTS	ii
LIST OF TABLES	iv
LIST OF FIGURES	v
INTRODUCTION	1
Importance of the work	1
Review of literature	2
Objectives of the work	6
Time and place of the work	7
MATERIALS AND METHODS	7
RESULTS AND DISCUSSION	11
LITERATURE CITED	32
APPENDIX	35

LIST OF TABLES

TABLES		PAGE
1	GENERAL ANALYSIS OF SOIL OF THE EXPERIMENTAL AREA	8
2	THE INTERACTION OF COMPLETE FERTILIZER, COPPER SULFATE AND VARIETY ON THE 30-DAYLY GROWTH RATE OF ONION (CM)	13
2a	ANALYSIS OF VARIANCE ON THE AVERAGE 30-DAYLY RATE OF GROWTH IN LONG-NECKED	36
2b	THE EFFECT OF VARIETY AND COMPLETE FERTILIZER ON THE GROWTH	37
2c	EFFECT OF VARIETY AND COPPER SULFATE ON THE GROWTH RATE OF LONG NECK VARIETIES (CM)	38
3	THE EFFECT OF VARIETY AND COMPLETE FERTILIZER ON THE NUMBER OF LEAVES PER PLANT	15
3a	ANALYSIS OF VARIANCE ON THE NUMBER OF LEAVES	39
3b	EFFECT OF DIFFERENT CONCENTRATION OF COPPER SULFATE ON THE NUMBER OF LEAVES OF TWO ONION VARIETIES	40
3c	THE INTERACTION EFFECT OF COMPLETE FERTILIZER (12-24-12), COPPER SULFATE AND VARIETY ON THE NUMBER OF LEAVES PER PLANT OF ONION	41
4	THE EFFECT OF VARIETY AND COMPLETE FERTILIZER ON BULB DIAMETER (CM)	17
4a	ANALYSIS OF VARIANCE ON THE DIAMETER OF BULB (CM)	42
4b	EFFECT OF VARIETY AND COPPER SULFATE ON THE DIAMETER OF BULB (CM)	43
4c	THE INTERACTION OF COMPLETE FERTILIZER (12-24-12), COPPER SULFATE AND VARIETY ON THE DIAMETER OF ONION BULB (CM)	44
5	THE EFFECT OF VARIETY AND COMPLETE FERTILIZER ON SCALE THICKNESS (CM)	19

LIST OF TABLES (Cont.)

TABLES		PAGE
5a	ANALYSIS OF VARIANCE ON THE THICKNESS OF SCALE IN CENTIMETERS	45
5b	THE MAIN EFFECTS OF VARIETY AND COPPER SULFATE ON THE THICKNESS SCALE (CM)	46
5c	THE INTERACTION EFFECTS OF COMPLETE FERTILIZER (12-24-12), COPPER SULFATE AND VARIETY ON THE THICKNESS OF SCALE PER BULB (CM)	47
6	THE EFFECT OF VARIETY AND FERTILIZER ON THE WEIGHT OF BULB PER PLANT AT HARVEST (GM)	21
6a	ANALYSIS OF VARIANCE ON THE WEIGHT OF BULB PER PLANT BEFORE CURING IN GRAMS	48
6b	EFFECT OF DIFFERENT CONCENTRATION OF COPPER SULFATE ON THE BULB WEIGHT AT HARVEST (GM)	49
6c	THE INTERACTION EFFECTS OF COMPLETE FERTILIZER (12-24-12), COPPER SULFATE AND VARIETY ON THE BULB WEIGHT BEFORE CURING (GM)	50
7	THE EFFECT OF COPPER SULFATE AND VARIETY ON THE TOTAL MOISTURE CONTENT OF BULB (%)	24
7a	ANALYSIS OF VARIANCE ON THE MOISTURE CONTENT OF ONION BULB	51
7b	EFFECT OF VARIETY AND COMPLETE FERTILIZER ON THE MOISTURE CONTENT OF ONION BULB (%)	52
7c	SUMMARY OF THE INTERACTION EFFECT OF VARIETY, COMPLETE FERTILIZER AND COPPER SULFATE ON THE TOTAL MOISTURE CONTENT OF ONION BULB (%)	53
8	THE EFFECT OF THE VARIETY AND COMPLETE FERTILIZER (12-24-12), ON THE YIELD AFTER 3-MONTH STORAGE (KG)	26
8a	ANALYSIS OF VARIANCE ON THE WEIGHT OF BULB PER TREATMENT AFTER STORAGE (KG)	54

LIST OF TABLES (Cont.)

TABLES		PAGE
3b	THE MAIN EFFECT OF VARIETY AND COPPER SULFATE ON THE WEIGHT OF BULB PER TREATMENT AFTER THREE MONTHS STORAGE (KG)	55
3c	THE INTERACTION EFFECTS OF COMPLETE FERTILIZER (12-24-12), COPPER SULFATE AND VARIETY ON THE WEIGHT PER TREATMENT OF BULBS AFTER STORAGE (KG)	56
9	THE EFFECT OF VARIETY AND COMPLETE FERTILIZER ON THE PERCENTAGE OF ROTTING AFTER THREE MONTHS STORAGE	30
9a	ANALYSIS OF VARIANCE ON THE ROTTING PERCENTAGE	57
9b	EFFECT OF VARIETY AND COPPER SULFATE ON THE ROTTING PERCENTAGE OF CROWN BULB AFTER THREE MONTHS STORAGE	58

LIST OF FIGURES

FIGURES		PAGE
1	General view of the experimental area	59
2	Representative bulb samples of Red Creole as affected by various rates of complete fertilizer and copper sulfate	60
3	Representative bulb samples of Yellow Excel variety as affected by various rates of complete fertilizer (12-24-12) and copper sulfate	61
4	Storage rack under ordinary room condition	62
5	Sample plants attacked by bacterial soft rot	63
6	Closer view of the same samples	63
7	Sample bulbs of the variety Red Creole infected by bacterial soft rot in storage	64
8	Sample bulbs of Yellow Excel variety infected by the bacterial soft rot disease in storage	64
