

**READY OR NOT: THE WORKING MILLENNIALS' FAMILY OF ORIGIN
AND MARITAL ATTITUDE AND EXPECTATIONS**

**CRISLEE ALISON R. ALCANTARA
JESSY MAE S. CASTRO**

An Undergraduate Thesis submitted to the Faculty of the Department of
Psychology, College of Arts and Sciences, Central Luzon State
University, Science City of Muñoz, Nueva Ecija,
Philippines in Partial Fulfilment of the
Requirements for the Degree of

BACHELOR OF ARTS IN PSYCHOLOGY

JUNE 2018

BIOGRAPHICAL SKETCH

Crislee Alison Ramos Alcantara was born on November 23, 1997 in Cabanatuan City. She is the daughter of Mr. Ulysses O. Alcantara and Mrs. Ellen Grace R. Alcantara. While completing this research study, she is a 20 year old student. She finished her primary education year 2010 at Bettbien Montessori and had finished her secondary education year 2014 at Bettbien High School.

Formerly, she accomplished the course Bachelor of Arts in Psychology at Central Luzon State University in Science City of Muñoz, Nueva Ecija. She's been recognized as a Dean's Lister (A.Y 2014-2015, 2015-2016, 2016-2017, 2nd semester) and College Scholar (A.Y 2016-2017 and A.Y 2017-2018 2nd semester). She participated on the seminars related to Psychology such as 30th and 31st annual convention of Psychological Association of the Philippines Junior Affiliates (PAPJA) held in Mall of Asia Arena (January 2017 and 2018), Academic Network of Psychology and Social Sciences Department (ANPSSD) "5th National Psychology Research Congress: Outcome-based Psychology and Research: A Synergy" in Ilocos Sur (October 2016), Gender Awareness and Sensitivity (November 2015) and 23rd Psychology Students Research Congress in CLSU (November 2013).

BIOGRAPHICAL SKETCH

Jessy Mae S. Castro was born on January 5, 1998 to Mrs. and Engr. Jessie C. Castro. Upon writing the study, she is a 20 year old individual residing in San Jose City, Nueva Ecija where was also born and raised in. As a Catholic, she had her primary and secondary education in Saint Joseph School with Christian teachings as its core foundation. Her journey in grade school was highlighted on academic recognitions and being a member of the student government. In high school, her focus was more on extra-curricular activities particularly in Radio Broadcasting where she participated in Division and Regional Schools Press Conference.

Central Luzon State University became her second home from 2014 to 2018 where she studied Bachelor of Arts in Psychology. Her college record include academic recognitions such as being a Dean's Lister (A.Y 2014-2015, 2015-2016) and College Scholar (A.Y 2016-2017 1st semester). She also participated in different seminars related to Psychology and research such as the 30th and 31st annual convention of Psychological Association of the Philippines Junior Affiliates (PAPJA) held in Mall of Asia Arena (January 2017 and 2018), 23rd Psychology Students Research Congress in CLSU (November 2013), and Academic Network of Psychology and Social Sciences Department (ANPSSD) "5th National Psychology Research Congress: Outcome-based Psychology and Research: A Synergy" in Ilocos Sur (October 2016). She was also in attendance on seminar about Gender Awareness and Sensitivity (November 2015), as well as the one concerning LGBTs (October 2016) both took place in CLSU.

ACKNOWLEDGEMENT

First and foremost, I want to offer this venture to our **Almighty God** for all the wisdom he bestowed upon me, the strength and knowledge, in order to finish this research study. All praises and glory is given to him.

I would like to express my gratefulness to our thesis adviser, **Ms. Karen DG. Alvarez**, and to our critic and statistician, **Mr. Alvin Q. Pequiro**, for the knowledge, assistance and dedicated involvement in every step of the process of this paper, you still manage to guide us even if you have busy schedules.

I would like to give thanks to my circle of friends in college, **Squares** (Galvez, Malibiran, Partible, Castro and Precenillo), for always being there for me throughout my college days with you guys, college years had been easier for me. Thank you also for all the amazing and heartfelt moments. I know we all did great. I will surely miss you, a lot. Good luck future Rpm's.

I am thankful for my thesis partner, **Jessy Mae S. Castro**, for being patient with me, for guiding and encouraging me throughout this research study. We know all the hardship we've been through this research study so thank you so much for trusting me as your thesis partner and giving me confidence when I felt so miserable.

I also acknowledge with a deep sense of respect and gratitude towards the members of my family and specifically my parents, **Papa Thet** and **Mama Ellen**, who has always there to support me morally as well as financially. I am extremely thankful to them for their love, prayers, caring, sacrifices and for the never-ending support. Thank you ma and pa for understanding me all the time and for all the love you gave that helped me to finish my study. This is for you mama and papa. I love you so much!

Finally, my thanks go to all the people who have directly or indirectly supported and participated to complete this research study, without them this research study would not be possible.

ACKNOWLEDGEMENT

With the completion of this paper, all glory and honour may Yours forever be, Lord. I would also like to express my deep gratitude to my thesis adviser, **Ms. Karen Grace DG. Alvarez**, and critic, **Mr. Alvin Q. Pequiro**, for allotting your time and attention amidst of busy schedules and stressful work demands. Your knowledge in the field of research and statistics are also embedded in this paper, making it better and more relevant.

To my parents, for providing almost every necessity there is to live comfortably which aided me to function well both physically and mentally, I am truly grateful to you. I believe that without the guidance and stable support of the significant people around me, from my best friends and from my Psych friends, this study would be a failure so I offer my sincerest gratitude to all of you. Squares, heartfelt thanks for existing in my life and staying up until graduation day. Your mere presence caused many happy and sad moments we all shared in the last four years.

I also wish to extend my gratitude to my thesis partner, Crislee, for without her clearer thinking and more stable processing this study would never make it through. Thank you for not breaking down emotionally and for being my reliable friend from the start.

Lastly, special thanks to the private institutions for allowing their working millennials to participate on this study which provided sufficient data and good results. The whole study is primarily dedicated to the understanding of millennial employees, so as a form of gratitude I offer this additional learnings to be used or applied in any way there could be.

ABSTRACT

ALCANTARA, CRISLEE ALISON R. AND CASTRO, JESSY MAE S.,
Department of Psychology, College of Arts and Sciences, Central Luzon State University,
Science City of Munoz, Nueva Ecija, Philippines, **JUNE 2018, READY OR NOT: THE**
WORKING MILLENNIALS' FAMILY OF ORIGIN AND MARITAL ATTITUDE
AND EXPECTATIONS

Adviser: KAREN GRACE DG. ALVAREZ

Co-Adviser: ALVIN Q. PEQUIRO

Working Millennials, or those who are born between 1980s-2000, comprise almost half of the labour force in the Philippines. The research assumed that family of origin health docs affect marital attitude and expectations. Also, the differences among socio-demographic characteristics can also affect their marital attitude and expectations. All data were gathered from unmarried working millennials of San Jose City, Nueva Ecija. Family of origin is the retrospective assessment of the family wherein respondents were raised while marital attitude and expectations is measured with intention to marry, general attitude toward marriage and aspects of marriage. Millennial profiles were included to know if it affected marital attitude and expectations. Descriptive statistics show that millennials have positive view on future marriage and they have healthy family of origin. ANOVA shows the significant differences among specific socio-demographic characteristics (sex, relationship status, past relationships, sexual preference, occupation, salary, and religion) and marital attitude and expectations. However, the family of origin have shown both weak levels of association with intent to marry and general attitude towards marriage while it has no relationship at all with aspects of marriage.
