BIOGRAPHICAL SKETCH

PERSONAL DATA:

Name : Kennneth Corpuz Muncal
Date of Birth : December 6, 1996
Place of Birth : Cabanatuan City
Home Address : Brgy. Santor, Bongabon, Nueva Ecija
Religion : Roman Catholic
Civil Status : Single
Parents : June Francisco M. Muncal
: Julieta M. Corpuz

EDUCATIONAL BACKGROUND:

Elementary : Santor Elementary School (2004-2009)
Santor, Bongabon, Nueva Ecija
Secondary : Bongabon National High School
Special Science Class (2009-2013)
Sinipit, Bongabon, Nueva Ecija
Tertiary : Bachelor of Arts in Psychology
Central Luzon State University
Science City of Munoz, Nueva Ecija
June, 2017

TRAINING :

Intern Trainee : Fort Bonifacio General Hospital
Neuro-Psychiatry Section

ACKNOWLEDGEMENT

“Commit to the Lord whatever you do and your plans will succeed”- Proverbs 16:3

First and foremost I would like to thank and express my sincere gratitude to **God** for giving me wisdom and strength to pursue this study, for making me stay healthy even sometimes I forgot to take care of myself, for the countless blessings and guidance he gave throughout the entire process of discovering.

I would also like to show my deepest gratitude to the following people who helped me in making this thesis possible.

To my thesis adviser, **Sir Wawie Ruiz**, thank you for untiring patience reading my paper, giving me great suggestions to improve my this study and for making me think beyond my knowledge. I couldn't make it without your guidance sir.

To **Ma'am Bulanan**, my critic, thank you for all the constructive criticisms, questions and comments to improve this paper. To **Ma'am Bessy Belza**, for kindly rooting me to do my best in revising my thesis. I'm grateful to have you as one of my panel list.

To **Dr. Erwin Estimo** of CHILD Haus Manila and **Ma'am Mayeth Bonilla** of Bahay Aruga, I'm really thankful for allowing me to conduct this study with your patients in your hospice care institutions. Thank you for acceptance, cooperation and for making my data gathering possible for a student like me. Regards with **Dr. Gonzalez** of AFP Medical Center for sharing me information about pediatric cancer patients and how to

interact with them. Even I did not accomplish gathering data with your patient, I still appreciate it.

Also, with my co-volunteers in **Kythes** and the child life specialist in Philippine Children's Medical Center, thank you for all your fortuity during my data gathering days.

To my favorite mentor in Fort Bonifacio General Hospital, **Ma'am Maria Ligaya Andres**, I'm so grateful for your kindness and support ever since my internship days. Thank you for giving me knowledge and assisting me to do this paper. Thank you for always welcoming me in your humble house and even in your office.

For persons who always behind cheering in me, to my GAP friends **Nelson** and to **Heidel** for countless overnights in your flat. To my lifetime best friends, **Jeng** and **Joyce** for always believing in me that I can do it no matter what, even I only had little time to finish my study. Thank you for supporting me from the start and do not letting me down. Even we do not catch up so often, you guys really proved to me that your just one call away. I'm so lucky to have you all as my awesome companions.

Most especially, I would like express gratitude to my family who always giving me unconditional love, support and guidance. To my parents, **Dade June** and **Mame Juliet** for always making me inspired, for trusting me, and for all your hard works and support in all aspect just to reach my goals. Thank you for providing me with a solid foundation and for always being my rock. The two of you have helped me find my way in this world and I could not have done any of this without the two of you. To my sisters, **Ate Diane** and **Vianca Mae**, thank you understanding my attitude, for letting me use the bedroom

alone just to make me concentrated doing my paper and for supporting me until my thesis defense. To my loving **Lola Apple**, for all your prayers, for always being my cheerleader and encouraging me to never give up. Your unwavering belief and continued support has helped me to grow and flourish in countless ways.

This study wouldn't be possible without my participants **Joy, Juro, Jasmine** and **Kyzia**. I'm really thankful for your collaboration and for sharing and letting me know your surviving journeys. As well with **Elaiza** and the other pediatric cancer patients and their families I met in hospice and to the patients I encountered during my volunteering days who shared happy moments with me in while waiting for their treatment to start. I enjoyed being with you kids! Thank you for inspiring me. This study is dedicated for all the pediatric cancer patients like you as well with children out there fighting from their disease. You adorable angels could fly high in the near future! So just keep think positive in goodness, you will get better. Father God loves you!

To those who were not mentioned but deserved equal appreciation, I would like to say **THANK YOU VERY MUCH!**

KENNETH CORPUZ MUNCAL
