

**PHOTOCATALYTIC DEGRADATION OF METHYL ORANGE AND
METHYLENE BLUE USING ALUMINUM-DOPED ZINC OXIDE
NANOSTRUCTURES GROWN ON NYLON SUBSTRATE**

JENINA PATRIA SANTOS VILLAR

An Undergraduate Thesis Submitted to the Faculty of the Department of Chemistry,
College of Arts and Sciences, Central Luzon State University,
Science City of Muñoz, Nueva Ecija, Philippines
in Partial Fulfillment of the requirements
for the degree of

BACHELOR OF SCIENCE IN CHEMISTRY

June 2017

CHE-02-17-015

APPROVAL AND ACCEPTANCE

The undergraduate thesis entitled **PHOTOCATALYTIC DEGRADATION OF METHYL ORANGE AND METHYLENE BLUE USING ALUMINUM-DOPED ZINC OXIDE NANOSTRUCTURES GROWN ON NYLON SUBSTRATE** prepared and submitted by **JENINA PATRIA S. VILLAR** in partial fulfillment of the requirements for the degree of **BACHELOR OF SCIENCE IN CHEMISTRY** is hereby

APPROVED:

CESAR V. ORTINERO, Ph.D.
Adviser
6-13-2017
Date

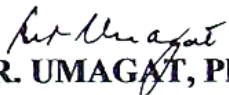

DANILO S. PARAGAS, M. Sc.
Critic
6/13/2017
Date

REDEL L. GUTIERREZ, Ph.D.
Department Research Coordinator
Date

DANILO S. PARAGAS, M. Sc.
Department Chair
6/13/2017
Date

AND ACCEPTED:

ANNA MA. LOURDES S. LATONIO, Ph.D.
College Research Coordinator
Date

MYRNA R. UMAGAT, Ph.D.
Dean
Date

BIOGRAPHICAL SKETCH

PERSONAL INFORMATION

Name : **JENINA PATRIA SANTOS VILLAR**
Date of Birth : January 22, 1997
Place of Birth : Science City of Muñoz, Nueva Ecija

EDUCATIONAL BACKGROUND

Elementary : **ACCELERATED CHRISTIAN INTERNATIONAL SCHOOL**
Science City of Muñoz, Nueva Ecija
March 2009
Salutatorian

Secondary : **PHILIPPINE SCIENCE HIGH SCHOOL –
CENTRAL LUZON CAMPUS**
Angeles City, Pampanga
March 2013

Tertiary : **CENTRAL LUZON STATE UNIVERSITY**
Science City of Muñoz, Nueva Ecija
Bachelor of Science in Chemistry
June 2017

SCHOLARSHIP AND AWARDS

Scholarship : CHED Tulong Dunong Scholarship Program

College Scholar : 1st sem, 2013-2014; 1st sem, 2015-2016

University Scholar : 1st sem, 2016-2017

Dean's Lister : 2nd sem, 2013-2014; 1st sem, 2014-2015; 2nd sem 2015-2016

EXTRA-CURRICULAR ACTIVITIES

Auditor : CLSU Chemical Society (2015-2016)

Vice President : CLSU Chemical Society (2016-2017)
for Internal Affairs

ACKNOWLEDGMENT

“Gratitude is the single most important ingredient to living a successful and fulfilled life.”
- Jack Canfield

... or, in this case, a successful and fulfilled study which would not be completed nor possible without the utmost support and encouragement from these people.

First, I would like to thank the Almighty who continued to guide me and answer to my prayers in His own precious ways for which I cannot fathom at times but continue to believe so. You truly work on miraculous ways through these people.

To my pamilee, whom without a doubt supported me without even overlooking my study or understanding even jut the gist of it, I sincerely thank you for not asking. To my mother, Edralyn S. Villar, who always knows when I am out of cash, I still don't know how you do it, thank you for all the financial and emotional support, we are now in great debt. Mame, I can only wish that I am half the person you are. You are my inspiration, my hero, and my idol, ever since I can remember and, for that, I promise to not let you see this.

To my adviser, mentor, co-author, Dr. Cesar V. Ortinero, I could not have asked for a better adviser. You truly are remarkable for all the knowledge, time, and resources that you generously shared to us. I am forever indebted to you, Sir.

To my critic and even co-adviser at times, Prof. Danila S. Paragas, who also shared her knowledge and time, and even lunch, to complete this study, thank you, Ma'am. You have done more than what you are entitled to do and, for that, I am grateful.

To our DRC, Dr. Redel L. Gutierrez, I know I promised you the second paragraph of this acknowledgment but there were way too many people to thank. Sir, I am sorry for

all the late nights and the stolen food but I also thank you for them and for all the extensions that you gave us, both deadlines and your patience.

To my orgmates, Ate Lei, Diolina, Erahem, Jay-Lord, Erica, Kuya Andrei, Ate Jasmine, Ate Ren, Kuya Raffy and Leendel, I would not have survived college without you living through it as well. You have shamelessly endured everything with me, and even more shamelessly latched onto me for guidance and support even if we were all having the same stuff to work on. To more years of camaraderie and friendship!

To my other classmates and friends, Eulyenne, Mary Ann, Mikka, Alison, Kevin, and Alquin, we all survived the same circumstances, so we are our only support group, so I guess, I am thanking you as well.

To my organization, the CLSU Chemical Society, to my fellow Chemsons, especially to Tatay Gil and Nanay Alona, who became the most outrageous family I've always craved for, thank you for making these years interesting and harder than it should have been.

To all the people from the Department of Chemistry, both teachers and students, who also paved our ways to success such as the end of this study, thank you.

To the people on the Surface Physics Lab in DLSU, thank you for accommodating us and for the peanut butter and strawberry jelly sandwich. We enjoyed it.

Lastly, I thank everyone behind my successes and failures in life, the people who believed in me and supported me through all my years of education, Tita Elsa, Tita Fina, Lola Zoraida, and more. I promise to give back and not fail you any further.

JENINA PATRIA S. VILLAR
